Your friend at the pump AND your passion on the road.

1EPA-estimated rating: 28 city/40 hwy/33 combined mpg. SE Sedan with SFE Package. Actual mileage will vary.
On straightaways. In corners. And as one of AUTOMOBILE Magazine’s All-Stars. Credit its responsiveness, especially in the turns, to an independent rear suspension and Torque Vectoring Control. The 2.0L I-4 engine, with direct injection and twin independent variable camshaft timing (Ti-VCT), delivers 160 hp to the street through a 5-speed manual transmission. On Titanium, a standard PowerShift 6-speed automatic with SelectShift® capability allows gear changes at the touch of a button, delivering torque to the drive wheels 100% of the time during shifts for quick response. Like changing gears yourself? Titanium can also be equipped with a 5-speed manual.²

Active Grille Shutters help Focus make itself even more aerodynamic and fuel efficient. Also helping efficiency, the motor of the electric power-assisted steering (EPAS) only operates when assistance is required. Features like these help Focus SE with the SFE Package have an EPA-estimated rating of up to 40 mpg hwy,¹ letting you keep on driving.

¹EPA-estimated rating: 28 city/40 hwy/33 combined mpg. Focus SE automatic with SFE Package. Actual mileage will vary. ²Optional feature.
Thrills you just to look at it.

Wait until you drive it. Step on the aluminum accelerator pedal of Focus ST and engage the spirited performance of its 252-hp, high-output 2.0L EcoBoost® I-4 engine mated to a 6-speed manual transmission. An “overboost” feature can extend peak torque (from 3,000 to 4,500 rpm) for up to 15 seconds at a time, enhancing performance. To further intensify the experience, engineers channeled the lower-engine frequencies of its signature sound into the cabin. Other ST performance upgrades include disc brakes with high-performance brake pads at all 4 wheels, a unique sport suspension and dramatic dual-tipped center-exit exhaust.

"... the ST is a roller coaster that leaves you with trembling limbs, a Joker’s grin, and a bewildered brain. Was I just driving, or did the car just take me for a thrill ride?" says Motor Trend. Decide for yourself. If you dare.
Grabs hold and doesn’t let go.

Of the road. And your heart. Enter and start without using your key. Grip the unique leather-wrapped steering wheel with ST badge. With 252 hp¹ and 270 lb.-ft. of torque,² Focus ST can be pushed to its limits – and back – in no time at all. Watch the speedometer and tach jump as you press the accelerator. Monitor the mini cluster gauges atop the instrument panel, including turbo boost, as you charge out of the corners. Along the way, supportive bolsters on its RECARO® partial² or full leather-trimmed² front seats keep you planted. In Focus ST, there’s no reason to hold anything back.

Listens to what you say.

With voice recognition this intelligent, it’s easy to stay connected to your world with voice-activated Ford SYNC® with 911 Assist.® The system delivers hands-free calls, Bluetooth®-streaming music and more with simple voice commands. Once paired, SYNC can download your contacts and play music from your phone, MP3, USB or iPod.® Just touch a button on the steering wheel and say things like “Call: Heather” or “Play playlist: ‘80s music.” SYNC AppLink™ lets you control Pandora®, iHeartAuto™, MLB.com At Bat® and select other apps by voice too. This companion listens to your requests – and does what you ask. SYNC. Say the word.

Available feature. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Not all features are compatible with all phones. SYNC AppLink is available on select models and compatible with select smartphone platforms. SYNC AppLink is not compatible with MyFord Touch®. Commands may vary by phone and AppLink software.

Elevates your expectations.

You’ll be amazed at all that Focus offers inside. Luxury comes in the form of leather-trimmed seats, dual-zone electronic automatic temperature control and 2 Interior Style Packages (in Arctic White or Tuscany Red) that feature two-tone leather-trimmed seats, matching door-trim inserts, coordinated steering wheel trim and more. Raise your profile even further with ambient lighting, fog lamps, a rear spoiler and aluminum wheels. And enjoy it all from a cockpit that helps you conquer the road.
Surprises at every turn.

Of the steering wheel. Especially when that wheel is turning on its own as Focus virtually parks itself. Press the active park assist button and the system alerts you when it has located an appropriate parallel parking spot. Then, take your hands off the wheel as Focus literally steers itself into place. All you have to do is follow system prompts, shift gears and control the brake and accelerator pedals. To bring some sunshine and fresh air into the cabin, choose the power moonroof. Add some style with a rear spoiler. With our Easy Fuel capless fuel filler, you’ll never leave your gas cap behind. You don’t need one. And handy integrated blind spot mirrors let you know that a vehicle is in your blind spot before you change lanes. These surprising features – and more – bring an added level of confidence to each drive.

Driver-assist features are supplemental and do not replace the driver's judgment. *Available feature.
Prepares for the unexpected.

More than half the Focus body structure is made from high-strength and ultra-high-strength steel, with critical occupant safety zones reinforced with lightweight yet incredibly strong boron steel. Seven total airbags include side-curtain airbags with roll-fold technology that increase peace of mind by deploying to cover both rows of the vehicle. AdvanceTrac® electronic stability control1 with brake-actuated traction control automatically helps avoid skidding and fishtailing, helping you keep all 4 wheels firmly planted in inclement weather. To ensure your tires stay properly inflated, the Tire Pressure Monitoring System (TPMS) alerts you when any tire’s pressure is low, giving you time to get assistance if needed.

1Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle under improper driving input or for the conditions. 2Available feature.
