Information Provided by:
Be driven by desire. Revel in it, and reveal the sensory delights of luxury focused on feel. The all-new Infiniti Q50 is designed for these delights. It delivers them with high-performance intensity and state-of-the-art originality. Luxury has found its future. Time to indulge.
Velocity has a special kind of magic. The moment you’re launched forward, you can feel from the inside out engineering that accelerates emotion, with power and efficiency. It’s so much more than movement.

INFINITI DIRECT RESPONSE HYBRID®

doesn’t ask you to choose between efficiency and exhilaration. Capable of achieving 36 miles per gallon2, it also delivers 360 horsepower with heart-pounding immediacy. ACCELERATION SWELL transforms mechanical power into emotional excitement. Precise engine tuning unleashes torque over a broader rev range, and sustains g-forces over a longer period. The feeling of acceleration is shaped to increase the faster you go.
What are you seeking? What feeling are you waiting for? As you take hold of the steering wheel, no matter what experience you anticipate, the Q50 amplifies it. It’s designed to become what you desire.

DIRECT ADAPTIVE STEERING™ expands your sense of control behind the wheel, and your relaxation on the road with a digitally enhanced steering connection—allowing for an unprecedented level of handling customizability and filtering out unwanted vibration.

INFINITI DRIVE MODE SELECTOR matches the way your vehicle performs to your conditions, your needs and even your mood with the simple flip of a switch.
There are hidden levels of driving enjoyment that are unlocked when technology and design converge to purify your connection with the road. It takes only an instant to discover what’s beneath the surface.

ZERO-LIFT AERODYNAMICS manage airflow to ensure your Q50 is balanced while you’re in motion, helping maintain exceptional stability when you accelerate and its intimate connection to the road, even if you encounter turbulence.

DUAL FLOW PATH® SHOCK ABSORBERS adjust damping forces based on road conditions to maintain the perfect ride and precise response that suits all your moments behind the wheel.
Your every touch has power. The greatest response and the tightest connection can come from a momentary contact, the lightest touch of a fingertip. Discover how technology designed in the right way can transform your gestures into influence.

**INFINITI INTOUCH™** integrates your digital life, including apps, in a system that responds naturally to your touch. Touch, tap, swipe to navigate email, stream music, catch up on social media and more.

**INFINITI INTUITION™** integrates a wide variety of settings from your audio system, to climate control, to navigation to ensure that every time you enter your car, it knows you perfectly.

**INFINITI INTOUCH™ NAVIGATION** offers a more intuitive 3-dimensional view and simple interface for increased ease and confidence, helping you expertly find your location and your destination, even in crowded city environs.
Visionaries don't just see the world with greater accuracy, they dream of new experiences that have precede it, and everything to your total sensorey delight.

SIGNATURE LED HEADLIGHTS are designed to complement the sculpted design of the all-new Q50 and create a dramatic flair that will turn heads. They also turn to shed light on where you're steering, helping heighten visibility as you maneuver.

HIGH BEAM ASSIST TECHNOLOGY automatically dims your high beams as oncoming vehicles approach. Extend courtesy, increase safety, savor convenience catered for you.
OBJECT OF ATTRACTION
THE ALL-NEW 2014 INFINITI Q50

Information Provided by:
DEALER E-PROCESS
ABUNDANT SPACE
The interior of the all-new Q50 was designed to emphasize both the rewards of spaciousness and the feeling of space. Its low, wide stance helps maximize head and hip room for all passengers. Interior elements like the roof and windshield pillars were shaved and shaped to give a more open feeling. The backs of the supportive front seats give rear passengers more legroom. What’s more, a wide trunk opening gives you easy access to one of largest luggage compartments in its class.

INVITING YOU IN
We use light to not only make you feel more secure, but to make you feel like an honored guest. Welcome Lighting responds to your presence automatically by gently illuminating the puddle lights as you approach. Then, as you get closer, the interior lights are illuminated. It’s a choreographed sequence that invites you to bring your Q50 to life and builds anticipation for the road ahead.

EVERY BREATH FRESHER AND CLEANER
Even the invisible is never overlooked. The Advanced Climate Control System features the innovative Plasmacluster air purifier, which actively produces positive and negative ions that help prevent odors from sticking to interior materials and even helps kill mold and viruses. It works in concert with the Grape Polyphenol Filter, which removes up to 99.5% of allergens from the air coming in from the outside.

AMBIANCE
A welcoming and evocative space is measured by its ability to stir your emotions.

MATCHLESS MATERIALS
Glide your hand across the armrest, and your fingertips seem to recognize the instinctively rewarding feel. This is purely intentional. We took one-and-a-half years, surveying 360 people all over the world to quantify the most pleasing tactile feel, then created the perfect materials to match it. With tension and texture that match the depth and spacing of the ridges in your fingerprint, it imbues the surfaces you’ll engage most with the perfect touch.
POWER

Award-winning build quality, fuel efficiency and output can be measured with instruments or graphs, but the true excellence of Infiniti engines is in the feeling unleashed as you drive.

3.5-LITER V6 ENGINE WITH INFINITI DIRECT RESPONSE HYBRID®

A combined system power of 360 horsepower responds to your call with thrilling immediacy, while it achieves a surprising 36 mpg. It transitions from all-electric mode to full-power hybrid mode, with an intensity and organic response that defies everything you think about hybrids.

3.7-LITER V6 GASOLINE ENGINE

Its robust design, exceptional power-to-weight ratio, advanced technology and fuel efficiency have won it acclaim from critics and fans alike. Benefitting from Variable Valve and Event Lift (VVEL®) technology, it adjusts on the fly to make the most of every breath and every bit of fuel, resulting in a stirring 328 horsepower while achieving up to 30 mpg.
AN ELECTRIFYING CONNECTION: There are more than 30 ways to dial-in the driving dynamics of your Q50. Direct Adaptive Steering™—a world's first technology—gives you an unprecedented level of customization by using electronics and next-generation digital systems to streamline the steering mechanism. Not only can it make driving more relaxing by filtering out unwanted vibration you feel in the steering wheel, it allows you to tailor the steering sharpness to get precisely the response you desire.

EFFICIENT INVIGORATION: No hybrid design is quite like it, and none can match its emotional intensity. The 50 kW electric motor and cutting-edge lithium ion batteries of the Infiniti Direct Response Hybrid™ are powerful enough to allow you maintain cruising speed in all-electric mode. When not needed, the 3.5-liter V6 gasoline engine is turned off and completely disconnected, maximizing mechanical efficiency. And yet, it responds to your call for power with a stirring intensity.

CONTROL WITHOUT COMPROMISE: When conditions are ideal, Intelligent All-Wheel Drive sends 100% of the power to the rear wheels for more sporty response and performance. But it also constantly monitors wheelspin, throttle position and vehicle speed, and can divert up to 50% of the available power to the front wheels to enhance traction and control when conditions are less than optimal. Your need for control, and your desire for excitement are both satisfied.

MORE RESPONSIVE BRAKING: The agile performance of the all-new Q50 is made all the more predictable with large brakes, and available opposed-piston calipers. The extra bite they take, shaves speed quicker and with greater confidence.

LIGHT ON ITS FEET: These stunning 19-inch alloy wheels’ heighten both the looks and performance of the Q50. Lightweight, thanks to both material and design, they reduce unsprung weight. That reduction of mass makes driving more exciting by allowing the suspension to be more finely tuned and by making the handling of the Q50 more responsive and more nimble.

AERODYNAMIC ADVANTAGE: The upper and lower body of the Q50 direct the flow of air over, around and under the vehicle, turning it into an incredibly effective downforce generator. By minimizing the pressure under the car and the “suction” effect over it, the design achieves zero-lift at the front and rear. This reduces the effects of wind turbulence at higher speeds, and leaves you feeling more tightly in control and in touch with the road surface.

SHARPER SHIFTS: When you flick the magnesium paddle shifter for a lower gear, Downshift Rev Matching bilps the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother downshifts for increased stability and more consistent engine power.

PERFORMANCE SETTINGS
Unleashing the intelligence and intensity of Infiniti Direct Response engineering, the all-new Q50 frees you to drive precisely the way you desire.
A SMARTER WAY TO SEE
The Adaptive Front lighting System lights not just the way ahead, but around as well. It directs light toward corners by turning the headlights in coordination with steering input. What’s more, the all-new Q50 introduces the innovative high-beam assist technology, which automatically dims your high beams when oncoming traffic approaches at night.

SPEAK YOUR DESIRE
Infiniti Voice Recognition allows you to set a destination on the navigation system, call a contact from your phone, play an audio track and much more—without taking your hands from the wheel. The system recognizes a wide variety of commands, making your life that much simpler and more elegant.

SECURING YOUR SPACE
Distance Control Assist employs radar to monitor the vehicle in front of you and helps you maintain a safe following distance. As your following distance becomes too short, the system can automatically engage the brakes as you release the gas pedal, and it can warn you if you need to brake. If your foot stays on the gas pedal while closing in on the other vehicle, it can push the pedal upwards to assist you in releasing it.

EASE IN TRAFFIC
Intelligent Cruise Control (Full-Speed Range) allows you to choose your desired speed, and automatically slows your vehicle in slowing traffic, going all the way to a complete stop. Then, as traffic flow picks up, it re-accelerates your vehicle to your preset speed. This visionary innovation and the personalized convenience it offers is available with a simple touch of a button.

ALL-AROUND AWARENESS
The Around View Monitor with Front and Rear Sonar System and Moving Object Detection gives you exceptional awareness of your environment as you park. You’ll see a simulated 360° view from above, showing you clearly the objects detected around your car. And the system will even alert you to moving objects detected in your vicinity. It helps put you intuitively in touch with your surroundings, while simultaneously putting you at ease.

AUDITORY INDULGENCE
The next-generation Infiniti Studio on Wheels by Bose brings 14 individual speakers to bear in its powerful array—three of which are 10-inch subwoofers, which add palpable depth to every form of music. Their positioning and sound delivery is precision-engineered specifically for the interior of the Q50 to filter out noise and distortion, and to surround you with compellingly rich and realistic sound.

SPEAK YOUR DESIRE
Infiniti Voice Recognition allows you to set a destination on the navigation system, call a contact from your phone, play an audio track and much more—without taking your hands from the wheel. The system recognizes a wide variety of commands, making your life that much simpler and more elegant.

The advanced technologies of Infiniti InSuite™ simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

TECHNOLOGY WITH HUMANITY
Infiniti InTouch™ puts intuitive control of your vehicle’s systems, and access to a wide array of familiar apps, right at your fingertips. The dual touchscreen interface allows you to set the climate control, do a Google search, check your social media, or access a wide variety of comfort and convenience settings, all in the same elegant interface. And with the customization of Infiniti InTuition™, it remembers your personal app selection, so you’ll always see the apps you’ve selected.
STRONGER AND LIGHTER

Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle's resiliency, it allows us to make the vehicle lighter overall.

1350 MPa ULTRA-HIGH TENSILE STRENGTH STEEL
590 MPa CONVENTIONAL STEEL

SENSORS WHERE YOU CAN’T SEE

The Blind Spot Intervention® System uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds. The system will even apply opposite side brakes to help guide your vehicle back to the center of your current driving lane.

MAINTAINING YOUR LANE

The Lane Departure Warning System uses a camera to watch departure from the traveling lane when you haven’t signaled, and audibly warns you if it’s detected. Then, if the drift continues, the Lane Departure Prevention System gently helps ease your vehicle back into the proper lane. What’s more, Active Lane Control can help you stay centered in your lane when driving in a crosswind or on a slanted road.

REVERSE WITH GREATER CONFIDENCE

A world’s first from Infiniti, Backup Collision Intervention employs an advanced set of sensors to help detect vehicles approaching from either side as you back up. If a vehicle is detected, the system alerts you—first, a warning light appears, then an audible alarm sounds, followed by gas pedal-force feedback. The system can even intervene by automatically engaging the brakes to help avoid a collision.

PREPARED TO PROTECT

Under certain braking conditions, the Front-seat Pre-Crash Seat Belts automatically tighten the front seat belts—helping restrain you and helping to maximize the effectiveness of the other occupant protection devices such as air bags.

HARM MITIGATED

Forward Emergency Braking scans the area ahead of you looking for signs that an unavoidable collision might be imminent. If it detects a probable accident, the system warns the driver, and automatically engages the brakes to reduce speed and mitigate damage.

ENHANCED PROTECTION

Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System that adjust inflation rates based on the severity of the crash. Also featured are front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.

PROTECTION

The Infiniti Safety Shield® concept—our comprehensive approach to safety—layers technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.
Hues that change in response to light and angle. Matching exterior and interior colors to reflect the distinctive energy and mood of the seasons. The reassuring resilience of Scratch Shield Paint that stays brilliant longer. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

EXTERIOR COLORS

- MOONLIGHT WHITE (QAA)
- LIQUID PLATINUM (K23)
- MARIGOLD BLUE (QPD)
- COBBLESTONE BROWN (QAE)
- VIBRANT ROSE (QAY)
- MALTESE BLACK (GAC)
- BLACK OBSIDIAN (KH3)

INTERIOR COLORS

- KACCHU ALUMINUM
- MAPLE WOOD
- WHEAT
- STONE
- GRAPHITE

Infiniti has taken care to ensure that the color swatches presented here are the closest possible representations of actual vehicle colors. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colors at your local Infiniti retailer.

WHEELS

- 17 X 7.5-INCH, SPLIT 5-SPOKE ALUMINUM-ALLOY WHEELS WITH ALL-SEASON RUN-FLAT PERFORMANCE TIRES
- 19 X 8.5-INCH, TRIPLE 5-SPOKE ALUMINUM-ALLOY WHEELS WITH ALL-SEASON OR SUMMER, RUN-FLAT PERFORMANCE TIRES
GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

17-INCH BRIGHT ALUMINUM-ALLOY WHEELS Wherever you go, there'll be no question to your sense of style and love of sporty design. These eye-catching wheels utilize lightweight alloy and original Infiniti logo center caps.

CARPETED FLOOR MATS Sophisticated design and luxurious materials make these floor mats a perfect match for the interior of your Infiniti Q50. An elegant emblem is precision-embroidered with the model name.

STAINLESS STEEL ILLUMINATED KICK PLATES The Infiniti logo glows softly along the bottom of the door sills—a signature flourish you and your passenger will appreciate every time you get in.

CARPETED TRUNK MAT® Moisture resistance and durable construction from high-density, cut-pile carpeting gives it superior spill protection and anti-wear characteristics as it helps guard your cargo area from damage.

CARGO ORGANIZER™ Collapsible and constructed of durable and flexible material, it helps keep your packages and other items from moving around while driving. Protecting them and your trunk from damage while reducing clutter.

REAR DECKLID SPOILER Custom-designed for perfect fit and factory-matched color, it enhances your vehicle’s sporty, aerodynamic appearance.

ACCESSORIES SHOWN 19-inch split 5-spoke bright aluminum-alloy wheels, midnight black grille, splash guards, Infiniti welcome lighting, rear decklid spoiler.

Infiniti Voice Recognition for navigation, including one-shot voice destination entry is an experimental system. It will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. The system is designed to be an extra safety feature to help you drive more safely. It is not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object. The system may not detect every vehicle or object around you. Always drive safely. AT&T will terminate 2G network availability. Once the 2G network is terminated, Infiniti Connection and Infiniti Connection Plus services will not function unless equipment replacements, upgrades, or alternative cellular network access is accessible.

**WARNING**

Infiniti is a registered trademark of Nissan North America Inc. The Advanced Climate Control System with Plasmacluster air purifier helps scrub the air in the vehicle’s interior. The system senses exterior odors, suppresses unpleasant interior odors and helps eliminate allergens. For best performance, the system requires fresh air from outside the vehicle. The system may stop operating during hot or cold weather. Front and rear air vents may be adjusted to increase airflow to the console area if necessary. The system can be turned off when desired. For best performance, the air recirculation button should be in the off position. The system is designed to be an extra safety feature to help you drive more safely. It is not a substitute for proper parking procedures and/or backing procedures. Always check that it is safe to do so before moving forward or backing up. May not detect every object. The system may not detect every vehicle or object around you. Always drive safely.

**DIAGRAM**

The image contains a diagram of the vehicle's interior and exterior features. The diagram is designed to provide a visual representation of the vehicle's layout, highlighting key components and their locations. The diagram is not to scale and is intended for general reference purposes. For detailed specifications and dimensions, please consult the vehicle's owner's manual.
Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti's flagship line has now grown to include sedans, coupes, convertibles and crossovers, all available in 49 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.

PARTNERS IN THE INTENSE
The pulse races, seconds split. Victories are won and lost. In Formula 1™, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track. Infiniti is drawn to Formula 1™ racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture, through our partner, Infiniti Red Bull Racing. The heart and determination the team has shown has led to three Formula 1™ Constructors’ World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1™ and Infiniti vehicles. This exchange of both technology and ideas now includes the appointment of 3-time Formula 1™ Drivers’ World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already aided in the development of the all-new Infiniti Q50—harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the genius and unrivaled passion that defines his greatness.
