

1. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 2. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, and driver steering input can affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. 3. 2012 EPA-MPG estimates. Actual mileage will vary. 4. Availability and accuracy of the information provided by the Navigation system or any XM services mentioned (if installed) are dependant upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic navigation updates available at additional cost. See your Navigation System Owner's Manual or contact XM for details. 5. XM services require a subscription after 90-day trial period. Subscriptions governed by XM Customer Agreement available at xmradio.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-800-967-2344 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 6. Certain TRD Sports Parts may be warranted differently than Scion Genuine Accessories. Please consult your Scion Dealer for warranty specifics. 7. Installation of non-Genuine Scion Parts or Accessories may impact your vehicle's warranty coverage. See your Owner's Warranty Information booklet for details. Certain aftermarket equipment may not be street-legal in all states and may impact your vehicle's performance or safety. 8. Performance tires are expected to experience greater tire wear than conventional tires. Tire life may be less than 20,000 miles, depending on driving conditions. Consult with your dealer when choosing tires for optional performance wheels. 9. All accessories offered by Optimize will be covered by the individual manufacturer's warranty, and not the Scion factory warranty. 10. Do not allow passengers to ride on the fully reclined front seat while driving. This feature is intended for use only when the vehicle is parked. While the vehicle is being driven, all vehicle occupants should have the seatback upright, sit well back in the seat and properly wear the seat belts provided. In the event of a collision, the more the seat is reclined, the greater the risk of death or personal injury. See Owner's Manual for additional information. Standard equipment, options, accessories, and other information is subject to change. 11. Displays range, fuel consumption, and average speed. 12. iPod and iPhone are registered trademarks of Apple Inc. iPod and iPhone not included. 13. The Direct Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your Owner's Manual for details. 14. Active Head Rests can help prevent or limit the extent of whiplash in certain types of rear-end collisions. 15. All the airbag (AB) systems are Supplemental Restraint Systems. All ABS (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-Force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner's Manual for further information/warnings. 16. Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. 17. Does not include service required under "special operating conditions." The new Scion can not be part of rental, delivery, taxi or commercial fleet. 18. Performance of BLU Logic compatible phones will vary based on phone software version, coverage, and your wireless carrier. See www.blulogicupdate.com for more details.
